

M WAQAS ZAFAR

SOFTWARE ENGINEER

Lahore, Pakistan | waqaszafer771@gmail.com | [LinkedIN](#) | [Github](#) | [Portfolio](#) | +923704072105

SUMMARY

I'm M. Waqas Zafar, a Software Engineer and Frontend Developer with a strong focus on building modern, responsive, and scalable applications. Have skills in React.js, Next.js, and Tailwind CSS, along with hands-on experience in Firebase, Node.js, and MongoDB. I also have experience working with Flutter and also expanding my skills to React Native by learning cross-platform mobile development. I have knowledge of AWS services, API-driven architectures, Git flow, project management, and effective teamwork.

EXPERIENCE

Frontend Engineer - Internship, Lab 23 Technology

July 2025 - oct 2025

- Contributed to developing responsive web applications using React.js, focusing on improving user interface and experience across devices.
- Assisted in integrating RESTful APIs using Axios and Fetch, streamlining data flow between front-end components and back-end services.
- strategies, improving UI responsiveness and reducing unnecessary re-renders.
- React JS, Hooks, Context Api

Social Swirl, App Developer Intern

Aug 2024 - oct 2024

- Designed and developed the company's mobile application using Flutter.
- Integrated front-end UI components and API connections to enhance app functionality

Co Lead, AWS Learning club Riphah

2024 - 2025

- Managed and organized AWS-related events and workshops.
- Guided AWS certification and training sessions.

SIG Core Member, Riphah International University

2024 - 2025

SKILLS

Language: C++, Javascript, Java, Dart, PHP

Frameworks: React js, Next js, Tailwind css, Flutter, React Native Expo (learning)

DataBases: Mongodb, MySQL, Firebase

Tools: Git & GitHub, VS Code / IntelliJ / Android Studio, Figma / Canva, Jira, bitbucket, clickup

Concepts: API's handeling, Designing, Cloud, State Managment, OOP, Dsa, postman

Soft Skills: Communication & Leadership, Project Management, critical thinking.

PROJECTS

UnityStack, Final year project

Sep 2024 - July 2025

Developed UnityStack in **MERN** Stack. A community platform where experienced developers support juniors through real-time collaboration, Q&A, and session management. My role involved end-to-end development, ensuring a good user experience and optimizing Frontend performance & documentation. Built on the MERN stack with MongoDB as its database

Check it out here: <https://github.com/WaqasZafar9/UnityStack2.0.git>

Social Swirl – Flutter App

august 2024

A Flutter application offering a platform for users to explore courses, apply for remote jobs, and access services provided by the company. Check it out here:

<https://github.com/WaqasZafar9/socialswirl.git>

Fresh Rose - Beauty Salon website

Jan 2024

<https://github.com/WaqasZafar9/Fresh-Rose>

EDUCATION

Bachelor in Computer Science

Riphah International University, Lahore

Oct 2021 - July 2025
